PATENT SILVER MOULD WHITE CLOTHES

To the Ladies of Maury and Adjoining

Feb. 24, 1871.

Counties: WE ASK THE PRIVILEGE OF SOLIC VV Iting your attention to our new quality f Clothes Line Wire, manufactured in such manner, of white metallic substance, that it is revented from ever corroding or changing rom its beautiful white color during any num er of years. We guarantee it to be perpetualused it we are confident that you will concur with the statements of thousands of families ad in its praise who have it in use. The following are the advantages gained by ing these Patent White Wire Clothes Lines 1st. They are truly an ernament wherever aced, always retaining that shining whiteness. re forever clean and never have to be taken in o matter what the weather may be, water or out cannot effect them. 2d. The durability of this Wire Line is one of e greatest considerations, as it will last from rty to fifty years, and during that time you will wear out a great many common lines, be-sides being obliged to put up with an immense

amount of trouble with them.

id. After it is put up and wiped off it is always clean, while a rope line is more or less caposed to dust and dirt and must be washed ith. By actual experience it is found to be by far the cheapest clothes line, basides its great convenience. This will last a litetime. ith. You can never harg it too heavily with 6th. Another of the chief advantages of this the over the rope line is, that clothes of any kind will not freeze to it in cold weather, and the finest tabrics can be removed at any time with out injury. A rope line will always absorb nore or less moisture from the clothes, and in cold weather will freeze through and through, and thin articles cannot be removed without a liability of learing them. While the wire being f a pure metallic substance does not absorb he slightest moisture, consequently there can of be frost enough formed to cause an adhesion and even the finest ganze can be removed from the line without injuring it in the least. 7th. The alkalies now being used in the pat-ent soaps have not the least effect on the White

Wire Lines. They dry quick and escape. 8th. It will save you its price in saving you time and trouble every six months you own it.

9th. It never will break and drop clothes in to the mud. The old rope line is frequently the cause of a whole day extra washing. This one thing alone is enough to condemn the old style of thes farever, and call into requisition an aricle that is free from all such provoking annoy ances, something strong, clean and durable Getthe Patent Everlasting White Wire Line n you have it right.
